Congressional News.

By Telegraph to THE SENTINEL.

WASHINGTON, March 12.—Manderson offered a resolution which he asks might be printed and lie on the table. It calls upon the secretary of the state for such information as the department may have regarding the rumored attempts of Gen. Ruffino Barrios, president of Gautemala, to seize upon the territory or destroy the integrity of the republics of Nicaragua, Honduras, San Salvador and Costa Rica, and to report what steps are being taken by the government to preserve the rights of the United States under the existing or pending treaties.

VanWyck called up his resolution offered yesterday, directing the secretary of the interior and attorney general to take steps to prevent the sale of lands granted the state of Florida to aid in building railroads in that state.

Capitol Gossip.

By Telegraph to THE SENTINEL.

WASHINGTON, March 12.—The president has made a change in the days of holding cabinet meetings, so that hereafter they will be held Tuesday and Friday. The cabinet met to-day under these arrangements. All members were present.

The president has designated Marcellus Gardner to represent the interior department in the executive board of the New Orleans exposition, vice Ben Butterworth resigned.

In the Hazen court martial to-day the judge advocate read to the court the admission of facts promised by the accused yesterday. The gist of the admission is that while he criticised the action of the secretary of war with respect to the Greely expedition, he intended no wrong to the superior officers.

THE REPUBLICAN CAUCUS.

The caucus of the Republican senators and its caucus committee, which has been engaged early and late since the session began upon the allotment of places on majority sides of the senate committee, finished its task to-day, but the result will not be formally declared until to-morrow. Senator Congor succeeds to the chairmanship of the committee on postoffice and postroads, made vacant by the retirement of Senator Bell.

Senator Pike takes the chair of the committee on claims, held by Senator Cameron, of Wisconsin.

Senator Sewel takes Senator Logan's place at the head of the committee on military affairs.

Senator Evarts was made a member of the committee on judiciary and foreign relations.

Senator Teller was made chairman of the committee on mines and mining and a member of the committee on public lands.

The judiciary committee is increased by one, and the commerce and public buildings committees by two each. Many other changes were made in the membership of committees for the purpose of equalizing honors, responsibilities and labors. The committee rooms and the task caucus of the committee was found on considerable difficulty, its members are unusually reticent about their proceedings, but it is understood that the feature of their work which proved most perplexing and related to the finance committee. Senator Sherman, it is said, asked to be relieved from further service upon this committee unless its composition was changed in some respects. He is credited with the impression that the New England ideas were dominant in the committee, and is said to have given this as his reason for wishing to withdraw. This, it is reported, when brought before the full caucus precipitated a discussion on the tariff in which wool and pig iron figured as the leading elements. Neither caucus nor caucus committee seemed to have seen its way clear to make the change desired by the senator from Ohio for republican membership on the finance committee, as it stands to-night it is the same as last session. Many senators have urged Sherman to remain upon the finance committee upon the ground that his familiarity with the financial affairs of the government would be there most conspicuously serviceable. His name stands second on the committee list. He was not at the capitol to-day and his further purposes in regard to the matter are unknown.

STILL THE RUSH CONTINUES.

There was about the usual rush of visitors to the white house to-day. The president arrived and at once betook himself to opening mail, which was unusually large. As one of the clerks at the white house put it: "President Cleveland receives as many letters a day as ex-President Arthur received in a week." It is a fair inference that many letters relate to appointments to office. The president ran hurridly through his mail and the began the reception of visitors, many of whom had been waiting some time. Among the callers were congressional delegates from Kentucky, Illinois, Iowa, North Carolina and Florida. The secretary of war called about noon and had a long conference with the president. At one o'clock the doors of the white house were thrown open to the public and the president was kept busy receiving his callers for over an hour. Colonel Lamont said to-day that the reduction in the clerical force in the White House was made merely in the interests of economy, and therefore no appointment would be made to fill the vacancies created. He said there might possibly be one or two more changes in the force, but that would be all. Since President Cleveland's inauguration the entire clerical force, including the private secretary, have been busily engaged from 8 o'clock in the morning till midnight, and it is expected the rush of business will compel the continuance of these working hours for some time to come. One of the regulations of the house prohibits the employes smoking in the office.

At the postoffice and interior departments the rush of visitors continued today without diminution, and notices have been posted in conspicuous places by the postmaster-general and secretary of the interior to the effect that only senators and representatives will be received after noon. The regulations beginning have a perceptible effect and both of these officials now find time to devote a small part of the day to the transaction of necessary routine business.

A party of Osman Digna's Arabs made an attack on one of the British outposts in the neighborhood of Suakim and Sikho were sent out into open field to attack. They were splendidly handled and showed admirable coolness and steadiness. The skirmish was hot while it lasted, but the Arabs were soon repulsed and many of their dead left upon the field. Casualties among the Indian troops are few.

A dispatch from Kushan says it is reported that the Russian government have ordered two regiments from Elizabethport to Askabad. Russia is making active preparations to complete the Kizilarvat and Askabad railway.

LONDON, March 12.—The cabinet met at noon, an unusually early hour, and at once attracted attention. Reports quickly spread that a crisis was being considered and interest in the meeting was soon intense. This was warranted by several incidents which preceded and attended the council immediately before the conference. Col. George A. Mandequry, counselor-in-chief to the queen, called upon Gladstone and had a long interview. Among the rumors to which this gave rise was one to the effect that her majesty had been advised that the Indian situation was grave and required vigorous and decisive action and that the queen urgently insisted on her government doing something. This and similar stories attracted a large crowd to Downing street and before the cabinet was long in session the prime minister's official residence was surrounded by a large crowd. Up to 3 o'clock it was not publicly know what the ministers had done. It is reported that they decided to address a serious representation to the Russian government that if through any Russian advance in Afghanistan a conflict results with the ameer's troops Russia must accept the consequences, as England was bound to guard Afghan territory.

Lord Harlington, the British minister of war, to-day conferred with Lieutenant General Allison and other authorities on oriental affairs.

A Canadian Rooted to the Ground and Immovable.

By Telegraph to THE SENTINEL.

MONTREAL, March 11.—A story is being circulated in the city relative to a miracle which is said to have taken place in Actonvale some days ago. A man while threshing grain, swore very bad, on some bystanders reproaching him, he replied; "If there is a God, let Him punish me." He was at once seized with paralysis and the position in which he stood, not only so, but he became rooted to the ground and could not be removed. The neighbors had to cover him with rugs to prevent him from being frozen and, although offered food, he could not take it. Monsignor Fabre has gone to the place presumably to try and restore him.

Choking His Aged Father.

By Telegraph to THE SENTINEL.

LOUISVILLE, March 11.—A sensation was created to-day at Bowling Green, Ky., by Charles Moore entering the house of his father, Dr. J. R. Moore, one of the best known and wealthiest citizens in the state, demanding that the aged parent sign notes to the amount of $6,000, which he refused to do. The boy then seized the father by the throat and choked him severely; releasing his hold upon the old gentleman's throat, he brought forth two revolvers, which induced the father to come to terms, and sign the documents. As soon as he could recover he had his son arrested. Young Moore is in the government employ at Evansville, Ind. The father is in a very feeble condition and refuses to prosecute his son.

The Coal Miners Strike.

By Telegraph to THE SENTINEL.

PITTSBURG, March 11.—The coal miners' strike is growing and Secretary Flannery of the miners association tonight confidentially claims that every pit in the Monongehela valley will be closed within the next twenty-four hours. Several more mines shut down to-night and Jordan Neil's men were the only ones now working. The fourth pool have promised to come out in the morning. At Scott Haven the strikers have been given ten days to remove from the houses of the Youghiogheny coal company.

A Southern Rate War.

By Telegraph to THE SENTINEL.

CHATTANOOGA, March 11.—The rate war being waged by the southern trunk lines is even more bitter than the one recently adjusted. Chattanooga is is made the base of operations, and the first intimation that the roads had fallen out again came from the fact that the Western & Atlantic cut the rates about 20 per cent. This was met by the East Tennessee, Virginia & Georgia. The rates are thoroughly demoralized and each road will make its own rates regardless of the pool restraint, and until the southern pool association adjusts the difficulty.

General Grant.

By Telegraph to THE SENTINEL.

NEW YORK, March 11.—Dr. Douglas says that though General Grant had slept but little Tuesday night he had rested comfortably and arose just before noon time, feeling better than for several days. He partook generously of nourishment in a liquid form and his pulse was lower than yesterday. His temperature is little above normal. This afternoon he wrote for over an hour on his reminiscences. General Grant was never a hearty eater and since his illness he has ate more than when in perfect health. He retired early to-night in excellent condition, comparatively speaking.

A Cancer Specialist Wants to See General Grant.

By Telegraph to THE SENTINEL.

NEW YORK, March 11.—S. B. Elkins, whose father was relieved of a cancer on the lips two years ago, writes that he has tried for five weeks to get Dr. Fordyce Barker and Dr. Douglass to consent to let a cancer specialist see General Grant, and they have not agreed to it. Elkins wrote yesterday, "Come here anyway Col. Fred Grant says you may see the general although they may not let you operate."

Elkins also writes, "I know his case is not as bad as fathers and I think you can cure it."

A Big Mortgage.

THE OLD PAY.

The Wabash Strikers at St. Louis Have Their Wages Restored and are Working.

The Sedalia Strikers Still Out and the Section Men Leave the Track.

The Engineers and Firemen Threaten to Join the Malcontents Friday Noon.

The Wabash Strike.

By Telegraph to THE SENTINEL.

ST. LOUIS, March 12.—Everything is quiet about the railroad shops here this morning. The men are all at work and seem to be entirely satisfied with the action of the company yesterday in the restoration of wages. The statement comes from Jefferson City, made on the authority of one of the leaders of the Sedalia strikers, who was in that city yesterday in conference with Governor Marmaduke, that unless a settlement of the difficulty is made by Friday noon the engineers and firemen will join the strikers. Governor Marmaduke will send a special representative to Sedalia to make further inquiry regarding the the situation there and will probably appoint a committee of personal friends at Sedalia to keep him thoroughly advised of the condition of affairs. He does not see why, if it be a fact as stated that no violence has been used and no interference practiced by strikers, that trains do not move and the traffic of the road is not resumed.

The strikers at Hannibal, Mo., have been joined by section men and some wood laborers and their total number is now about seventy-five. No freight trains are allowed to move on the Missouri, Kansas and Texas road, but passenger trains are undisturbed. General business is suffering and a good deal of discontent is becoming manifest among laborers in lumber yards, who had their wages reduced lately.

The latest special dispatches report the situation at Moberly, Sedalia and other southwestern points unchanged. The Wabash managers say that if the men go to work they will be paid according to their worth. This was rejected by the strikers. The Missouri Pacific and Wabash are having trouble now. Freight business is abandoned in the southwest and hundreds of loaded cars stand on the tracks.

The War on the Peninsula.

By Telegraph to THE SENTINEL.

SAN JUAN DEL SUR NICARAGUA, March 12.—Active war preparations are being made throughout the country. The government has now several thousand men ready to send to the frontier. Strenuous efforts to resist the barriers are being made in Costa Rica. A large number of soldiers are ready to move. Great enthusiasm is manifested and confidence in the final result is displayed. It is thought probable that some quarters of Guatemala will consider the matter before attempting coercive measures and that a friendly solution of the difficult problem of uniting five states may be arrived at.

The Strike at Seattle.

By Telegraph to THE SENTINEL.

SEDALIA, Mo., March 12.—There is no change in the condition of affairs here. The streets of the city are as quiet as Sunday and scarcely any business is being transacted. Adjutant General Jameson is here again and with a police force endeavored to move freight trains. Five attempts were made and each time the strikers requested the six engineers not to move their engines and the request was complied with. The strikers will hold a meeting this afternoon when it is expected Captain Hayes, senior vice president of the Missouri Pacific road, will be present.

OFFICIAL PAPER COUNTY AND CITY.

THURSDAY, MARCH 12, 1885.

THE Mormon church is in great trouble. This is good news to everybody, except the Mormons.

JOHNY BULL in attacking El Mahdi has "bit off more than he can chew," to use common parlance.

IT is said that Dr. Burchard's successor will not use any word beginning with R. in his discourses.

A TRAIN dispatcher in Washington estimates that there were 277,364 visitors in that city on inauguration day.

GENERAL GRANT'S salary under the retirement bill is $13,500 a year and $125 per month as commutation for quarters.

WITH 10,000 men on a strike, and the only prospective rise being in the case of the river, Pittsburg is not in an enviable situation.

MR. CLEVELAND used the pronoun "I" once only in his inaugural address. Hayes rang it in sixteen times, Harrison thirty-eight and Lincoln forty-three times.

IT is reported that Samuel J. Tilden's yacht Viking, in winter quarters at New London, Conn., was elaborately decorated on the Wednesday of Cleveland's inauguration.

THE Terre Haute *Gazette* in commemoration of the coming in of a brand new administration comes out with a brand new dress. It adds greatly to the appearance of the paper.

THE Baltimore *Sun* is authority for the statement that President Cleveland's lips touched six verses when he kissed the bible, and these were in the 112th psalm, from verse five to ten inclusive.

BAYARD is pronounced Byard and Vilas is pronounced Vylas. The accent in the name Lamar, is placed on the first sylable. The names of the other cabinet officers are pronounced as they are spelled.

A UNITED Presbyterian preacher has decided that a person may live and die a Christian without knowing it. An answer to the question, "Can a person live and die a Christian without somebody else knowing it?" is now in order.

AN order for 150,000,000 cartridges was received from Europe in one day last week by an American firm. This looks something like even the sort of business revival which the friends of the belligerent Blaine promised his election would bring.

ELI GRABLE and Miss Bettie De Mosse, of Harrison county, became engaged about fifteen years ago, and agreed to have the marriage ceremony performed when a democratic president should be elected and inaugurated. They were married on the evening of the 4th inst., after many years of patient waiting.

LOGAN'S chances for election to the United States senatorship grow slimer every day. A number of the republican members of the Illinois legislature have boldly declared that unless Logan is elected this week they will vote for him no longer. As Logan has but a faint chance of election at the best this gives the democrats the lead. In the meantime the tax payers of Illinois are paying $3,000 for every day their legislature remains in session.

THE Philadelphia *Record* says: "Secretary Manning will be brought in comparison with the retiring secretary of the treasury, Mr. Hugh McCulloch, one of the ablest financial ministers the country has ever had. Secretary McCulloch's last report indicates the manner in which a republican statesman proposes to Congress to reduce tariff burdens. Though some extreme protectionists grumble over the recommendations of Secretary McCulloch, there is no doubt that they met with the approval of a vast majority of the people.

THE roller skating masher does not meet with the success in Indiana that attends his efforts in Ohio. At Livermore the other night one of the young men took the liberty of putting his arm about a fair Hoosier who was skating with him, when she struck out from the shoulder and knocked one of his eyes out.

MR. CLEVELAND has paralyzed Washington society by the fact that he takes an 8 o'clock breakfast. He is at his desk in his office at 9 o'clock. Mr. Arthur never could be seen before 11, and rarely until 12. This establishment of an early breakfast hour is one that will give great satisfaction to public men. Senators and members who have business at the White House like to be able to transact it in the morning, when they make the rounds of the departments. The fact that they can see the president at such an early hour will result in a great saving of their time. Mr. Cleveland has gone to work to establish the same business methods which he employed at Albany. He intends to see every one who calls upon him. Through his facility for expediting business and dispensing with needless ceremony, he will be able to handle his numerous callers, and transact the business of his executive office as well. The rush now is mainly from sight seers. The office seekers are beginning to come and will not be contented with less than a personal application to the president. He intends to meet this tide, however, with a reference of everything but special positions to the head of departments.

GOVERNMENT BUILDINGS.

Soon after the war Uncle Sam started off with the motto of Bobby Burns, "Let Architecture's noble art bid elegance and splendor rise." Most of the public buildings have been constructed between then and now, and the amount appropriated is about $94,000,000.

The record of such appropriations in connection with original estimates contains a good deal that is striking and in a sense amusing. The original estimate of the cost of the site and building of the New York postoffice was $3,542,930, but the actual cost was $9,311,690. The expenditure on the Boston postoffice and sub-treasury building was expressly limited by the act to $1,500,000, not including the cost of the site; but the sum of $5,499,000 has been already been expended on it. The expenditure on the postoffice building at Philadelphia was originally limited to $1,500,000, but shortly afterwards the limit was raised to $3,000,000. The limit was again raised to $4,000,000, and by the latest returns the government has expended nearly $6,000,000 in the investment.

Without extending the illustrations it is a very manifest fact that Uncle Sam's original ventures in public buildings are very much in the nature of a margin speculation in a bucket shop, which, beginning with a payment of three cents on a bushel of wheat sometimes end in an outlay of twenty to twenty-five cents. Uncle Sam buys a liability and not a finished investment.

One reason why diseases of the bladder and urinary organs are so difficult to cure is that they frequently have no pronounced symptoms. Hunt's Kidney and Liver Remedy is peculiarly adapted to the cure of these complaints, and goes at once to the seat of the trouble giving relief at once.

A London policeman receives only $6 a week. He has a pension, though, if he stays on.

Nutritious food is essential as a means of restoring a consumptive to health. A medicine that will strengthen the lungs and soothe all irritation is also necessary. Such a remedy is Dr. Wistar's Balsam of Wild Cherry. It is the only preparation of wild cherry that gives complete satisfaction. It quickly cures coughs and colds.

Sick Headache.

Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved writes: "Hood's Sarsaparilla is worth its weight in gold." HOPE!

A young man named John Naves, living near here, had an eating cancer on his face, which had eaten away his nose, part of his cheek, and extended up nearly to his eye. It was one of the most angry eating sores that I had ever seen. His throat finally became involved to such an extent that he could only swallow liquid food. After using all the remedies without checking the ravages of the eating cancer, his general health was broken down, he was confined to his bed, and thought it to be only a question of time about his death from the cancer. I put him on Swift's Specific as a last resort, and he began to improve with the first dose. His general health improved at once, and rapidly; his throat got well; the ravages of the cancer were soon stopped; it began to heal around the edges; and after a few months treatment with S. S. S. he has gotten entirely well. His face is all healed over with new flesh, and his general health is excellent. His recovery is wonderful. M. F. CHUMLEY, M.D.

Cancer for Many Years.

TIPTONVILLE, TENN., Oct. 12, 1884.—Gentlemen: I am proud to inform you that Swift's Specific has CURED my cancer, and it was very bad one. I am in fine health—not better for twenty years. I have gained twenty-two pounds since I commenced taking SWIFT'S SPECIFIC
R. S. BRADFORD.

SSS

Snatched from the Grave.

Mrs. Sarah E. Turner and her mother Mrs. P. E. Bryan, for nineteen years residents of Humboldt, Tenn., make the following statements as to the merits of Swift's Specific. Mrs. Turner's case is well known in this community. She says:

"I was afflicted for two or more years with Eczema and Erysipelas combined. My whole system was broken down, my strength and appetite gone, and I became as helpless as a child, being lifted from place to place by my friends. I was treated by the best physicians in the community with iodine of potash and the other usual remedies for such cases. I was given up to die by my friends. My sufferings were beyond description, and I had lost all hope of recovery. Last January I was induced to try Swift's Specific, having received a pamphlet from the company detailing its merits. The first half dozen bottles had the effect to bring back hope to my heart, and the thought of being well again brought joy and gladness to the household. I have taken altogether 24 bottles. The sores have all healed up and disappeared; my strength has returned, and I am able to do all kinds of housework. Swift's Specific, I honestly believe, snatched me from the grave, and I do not know how to be grateful enough for my recovery.
MRS. SARAH E. TURNER."

I know that S. S. S. has saved my daughter's life. She was the most wretched looking object that I ever saw when she commenced taking it, being perfectly helpless. I thank God that we heard of it. It has saved my child.

The New York board of health estimates that 30,000 lives have been destroyed by the explosive qualities of petroleum. If every house hold would adopt the White Seal oil for family use, none of these unfortunate accidents would occur.

WHITE SEAL BURNING OIL

has none of the defects usually found in common oils. It cannot be exploded, does not char the wick, will not smoke, emits no offensive odor, and prevents the breaking of chimneys.

is a rich oil for illuminating purposes. It is as light in color as pure water. It gives a strong steady light, and burns much longer than common oils.

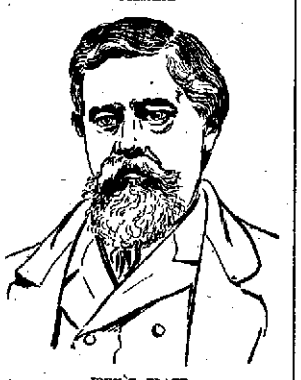
The New Commissioner of Pensions. President Cleveland's Law Partner and the Notorious Adventurer of the Soudan.



JOHN C. BLACK.

The first act of Mr. Lamar as secretary of the interior was the appointment of Gen. John C. Black of Danville, Illinois, to the commissionership of pensions. Gen. Black is a noted lawyer in the West, and served during the war with the 37th Illinois Regiment. He has been prominent in Illinois politics, having been the Democratic candidate for lieutenant-governor in 1872. In 1879 he was a candidate for the United States Senate iff opposition to Gen. John A. Logan. The position to which he is called has been vacant for several months.

The Danger of Good Looks.

[Bill Nye.]

As a general thing, great men are not beautiful. The pretty young man has really but one avenue open to him in the world's great race. If he cannot mash a tough old heiress, whose father has got the pip, he has very little chance in the mighty struggle of life.

If my son should show any signs of great physical beauty, having taken them from his mother's side of the house, I would immediately hump my back ready to bear a great burden; for, judging from the world's history, his father-in-law and I would have to take a turn about in maintaining the young man and his cumulative family.

The Adventurer who Directs the Mahdi.

OLIVIER PAIN.

Nine years ago there was in New York city a young man who has since proved himself one of the foremost adventurers of our time. He was a refugee Frenchman and had been an actor in the communist revolt in Paris in 1871. For this he was sentenced to the penal colony of New Caledonia, but escaped from there in company with Rochefort and shortly after appeared in New York. He then dropped out of sight until the Turco-Russian war. We again hear of him as private secretary to Osman Pasha at the siege of Plevna. When Plevna fell, he was captured by the Russians and offered to the French government. The latter refused to protect him on account of his having been an escaped convict, and left him to his fate, so he was condemned to death as a spy. Somehow the sentence was not executed, for he next turns up in Paris under the amnesty of 1880. Here he soon won distinction as a journalist, but again disappears, until it is now known that he is the mysterious "Irishman" who has so successfully guided the Mahdi in resisting the British in the Soudan, resulting in the loss of Gordon and Khartoum.

President Cleveland's Law Partner.

WILSON S. BISSELL.

Wilson S. Bissell weighs 220 pounds. He also wears a 7¾ hat, which, it is unnecessary to say, covers a large head in more senses than one. He has been on intimate terms with Cleveland for 20 years. He is a lawyer of high standing at the bar in western New York and was Cleveland's former law partner. He is a graduate of Yale college, and before his marriage was one of that coterie of "bachelors" of whom so much was written about during the campaign.

He Didn't Know It Was Loaded.

[Chicago Tribune.]

"Why are you like the moon, Nickup?" said his friend Bates. "I give it up," answered Nickup. "Well, because your face is always bright and beaming with good nature," said Bates. "That ain't bad; I'll just tell that to my wife when I get home," said Nickup, and then he winked at the bartender and told him to "set 'em up again."

"Mary," said he when he reached home that evening, "Why am I like the moon?" "What is it?" she sharply asked. He repeated the question. "Because you are full every month in the year," she answered, and crushed him.

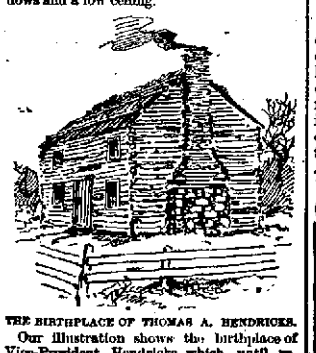
Where the President and Vice-President First saw the Light.

WHERE PRESIDENT CLEVELAND WAS BORN.

The birthplace of Mr. Cleveland is the first house that is seen in the little village of Caldwell, N. J., approaching from Montclair, and is situated on the left hand side of the road. For years the old-fashioned house, with its quaint gable ends and ivy-covered porch, has only attracted the attention of the villagers as the parsonage of the First Presbyterian church, but lately it has become of more interest. Mr. Berry, the present pastor, recently gave the following interesting account of the place: "This," he says, "is the house in which Mr. Cleveland was born. It was first occupied by Stephen Grover, a former pastor of the church. In 1844 Mr. Grover resigned the pastorate and Richard F. Cleveland was called on May 13 of the same year. Mr. Cleveland had many children, one of whom, William N., became a minister and went to Long Island. In the old church baptismal record we find the record of the birth and baptizing of the Democratic nominee, which reads as follows: 'Stephen Grover Cleveland, baptized July 1, 1837; born March 18, 1837.' "During his six years' pastorate," continued Mr. Berry, "Mr. Cleveland's father had a child baptized every year." The room the President was born in is now used as a library. It is about fifteen feet square, with two windows and a low ceiling.



THE BIRTHPLACE OF THOMAS A. HENDRICKS.

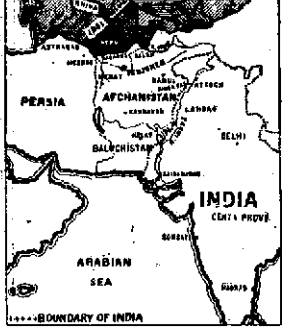
Our illustration shows the birthplace of Vice-President Hendricks, which, until recently, stood on the Michigan turnpike near the town of Zanesville, Muskingum county, O. It was built of hewn logs by the father of Thomas A., who combined the pursuits of tanner and farmer. When young Tom was a boy his father erected a story and a half brick building a little north of this hewn log structure, and Tom drove the oxen for the transportation of the necessary material. The lad led the life of a farmer's boy, as his father soon abandoned the tanning business. It was around this frontier house that young Hendricks worked in the summer, but developing more aptitude for study than soil tilling, his father allowed him to attend a distant village school in winter.

America Still Ahead.

[Daily Graphic.]

If Christ had not died for these thou hadst been damned Dobbins was the name of a man in England in the days of the Roundheads, but Dorchester county, Md., presents two names almost as odd. The owners of the names still live near Cambridge, on the Choptank. They are "Julia Jane Augusta Dominica Rustis Ro Bo Bustis Jack" and "John Henry Land Runner Runout and Surveyor Bandanna Beaver Dam Rendezvous God Bless Busticue."

The Aggression of the Russian Bear.



MAP OF TERRITORY ABSORBED BY RUSSIA.

The above map shows clearly the sections of country that Russia has at different times assumed control of in her southward march into Asia toward the frontier of India. It will be seen that the situation revealed by recent telegrams, and which excites so much anxiety at London and Calcutta, is the inevitable outcome of a deliberately planned and firmly prosecuted movement. In 1839 it will be seen the largest sections of territory was annexed, and the subsequent accessions in 1863-'67-'74-'76-'81 and '84 grow smaller as the danger of alarming the British lion increases. It is evident that Russia is endeavoring to obtain an outlet to the Arabian sea, and taking advantage of England's present complications in Egypt has been quietly strengthening the acquisitions obtained up to this time with the intention of making a bold dash through Afghanistan when the opportunity should present itself.

The boundary line of India, together with the location of all the strategic points with the names of which the public are likely to become familiar in the coming conflict, are distinctly marked on this map, which should be kept for reference. South of the city of Pendjdeh is a dotted line showing the boundary line between Russia and Afghanistan, which is now in dispute. At present the Russian forces, with their advanced bases of supplies at Merv and Sarakhs, are, while the British Foreign Office is amused with negotiations only intended to gain time, being steadily pushed onward by two distinct routes, which converge at Herat.

Philadelphia Call: The shrewd skating rink man never advertises hard wood floors.

It is clear that modern science is on the side of the hotel clerk, the new rich men's wives and the actresses who want to make a display which will attract attention to themselves. One of the greatest of American electricians has invented an electric scarf pin, which, being connected with a pocket battery may be illuminated to great brilliancy. This article, with all its attendant machinery, may be made and sold for the small sum of seven dollars, and the battery is warranted to furnish light to the pin for three full days without renewal.

Threw Himself Out of a Window

A merchant, overcome by nervous prostration, recently became so wild and delirious that he jumped from a third story window of his house and was fatally injured on the pavement. Had this unfortunate gentleman taken Brown's Iron bitters in time, his life might have been preserved. This potent tonic enriches the blood, tones the nerves, and imparts energy to failing constitutions. Mrs. Phœbe A. White, Alaska, Mich., says: "Brown's Iron bitters cured me of dyspepsia, poor appetite, and nervous prostration."

Mr. Richard Rosington tells us he will not relinquish control of the Robinson house, as the *Gazette* stated. Mr. Rosington has a lease of the hostelry and has made the house popular.

The skating rinks have cut off the attendance and receipts of Fort Wayne saloons one half, while billiards have no charms for young men. These are points frequently overlooked by people who don't like roller skating.

A stable, the property of Oscar A. Simons, burned on Glasgow avenue last night, entailing a loss of about $100. One of the fire department horses was belabored because it could not pull a heavy hose cart and a dozen robust men who swarmed on it.

The first consignment of freight from the Wabash railway to the Chicago and Atlantic, under an arrangement previously made, was received at Newton, west of Fort Wayne. The company has completed a turntable at that place and will also erect a round house.

City papers advocate the expenditure of $30,000, now in the treasury, on a new city hall. About two years ago THE SENTINEL pointed out that this money would be available now but the same papers could not see it. THE SENTINEL first advocated the expenditure this time.

The Roanoke correspondent of the Huntington *Herald* says: "Charles F. Hiaber, of Fort Wayne, and Miss Alice A. daughter of Henry Kelsey, of Lafayette township, Allen county, were married at the residence of the bride's parents, on Sabbath, Rev. J. A. Lewellen, of this city, officiating."

The wheat crop of Indiana is reported now at an average of 80 per cent. of a full crop, with 82 per cent. of an average acreage. In Allen county the average is said to be about these figures, and if the wheat heads out well will reach 90 per cent. of a full crop.

Cisson, the Chicago costumer, wants Frank Rohle to skate in his Dutch costume at a Chicago carnival. He offers to pay the police officer's expenses, but Mr. Rohle will not go. Mr Rohle is the first man in America to fasten roller skates on wooden shoes.

The rain of to-day and the warm weather of the past few days have made the streets a sea of mud and slush. The authorities cannot commence to clean the streets any too soon now. If thoroughly cleaned a few days of warm sunshine will render them dry and hard.

Freight business on the railroads is picking up rapidly as spring approaches. Grain is being moved from west to east in larger quantities than at any time since last fall. Country merchants are receiving their goods for the spring and summer trade from this city, which also adds very much to the volume of business which has been unusually dull during the past four months.

The Evening Dress Carnival.

There was a large and select assembly at the Academy skating rink last night to witness and participate in the dress carnival. The costumes worn by the skaters were the most unique and luxuriant ever seen here. Ladies were in fancy and evening dress. The gentlemen likewise varied in attire from the full evening dress to the amusing character business. The grand march, led by Loren Davis and Miss Fannie Dillon, began shortly after 8 o'clock. Charles E. Reed, Mont Orff and Harry C. Hanna were selected to award prizes and did so as follows:

Mr. Clark is tasty, knows what style is and makes his goods to give satisfaction. Yesterday his new cloths came here and are displayed at Mr. Clark's merchant tailor house, No. 34 East Berry street. Mr. Clark invites his friends to call and look at the goods. They speak for themselves and certainly the line is the finest ever opened here.

At the recent meeting of the stockholders of the Pennsylvania railroad company President Roberts stated that the Pennsylvania company had received $9,600,000 from the Pittsburg, Fort Wayne and Chicago railroad company for expenditures for betterments since the commencement of the lease, in 1869; the sum of $1,100,000 was now due, and full payment was expected shortly. The money expended for betterments came from securities in the company's hands. A resolution to divide the entire amount taken from the next earnings of the company among stockholders on a stock dividend was defeated.

The Mayer House.

Charles H. Nix will arrive in the city to-night. In view of the apathy of citizens with reference to assistance in the construction of a new hotel it is probable Mr. Nix will close the Mayer house as a hotel and convert the south portion into a boarding house. Geo. J. E. Mayer, who successfully conducted the house, has a chance to manage a big hotel at Rockford, Ill. The rain poured through the burned portion of the hotel to-day and the insurance adjusters looked at the house.

To the Editor of THE SENTINEL:

My attention is called to a statement which must have appeared in THE SENTINEL while I was absent from the city and which gives me as authority for the assertion that there is a provision in the lease of the Pittsburg, Fort Wayne and Chicago railroad to the Pennsylvania railroad company requiring that the principal shops of the leased line be forever kept at Fort Wayne. I desire to say that I never made any statement whatever in regard to that matter. Also to say that I do not know what the fact is, as I never read the lease, but if I were to hazard an opinion it would be that there is nothing in the lease to prevent the lessee from operating the property in any manner they may desire. There need be no uncertainty in the mind of any person who will take the trouble to read a copy of the lease in the recorder's office, commencing on page 47 in book 7 of miscellaneous records of Allen county, and covering nearly twenty-four pages.

Respectfully,

O. A. SIMONS.

The Wabash Muddle.

The Wabash strike is unchanged here and the men are as steadfast as ever in their determination to resist the reduction of wages. The company is suffering because of the crippled condition of a number of their locomotives, but yesterday a number of the disabled engines were shipped to Trenton, N. J., for repairs. It is the intention of the road managers to send all their repair work to outside shops and thereby defeat the strikers, whom they say will never get an advance in wages.

W. K. 10 has returned from Peru where he says a part of the Wabash men have struck. The others will walk out Saturday.

A Matrimonial Event.

This evening at 8 o'clock occurs the marriage of Frank J. Healy and Miss Mattie E. France. The ceremony will be solemnized at the residence of Rev. D. W. Moffat, who is a friend of Healy's father. The groom is city editor of the *Gazette* and a brilliant journalist. The bride is quite a charming young lady and resides with her mother on Maumee avenue. THE SENTINEL extends congratulations in advance.

Withdrawing from the Pool.

By Telegraph to THE SENTINEL.

INDIANAPOLIS, Ind., March 11.—President Ingalls, of the Cincinnati, Indianapolis, St. Louis & Chicago railway, has notified Commissioner Fink that April 1st his road would withdraw its membership in the Trunk Line pool and will not thereafter be governed by the rulings of the joint executive committee on either the Indianapolis or Seneca pool business.

Still Failing.

By Telegraph to THE SENTINEL.

SPRINGFIELD, March 11.—The Register's special states that Senator Bridges is still failing.

Formerly weak, nervous, dyspeptic and debilitated individuals who found only disappointment in the various bitters and quack nostrums, pretended kidney medicines, etc., are agreeably surprised to regain perfect health and strength of mind and body, and complete heart's ease and freedom from aches and pains by the of Dr. Guysott's Yellow Dock and Sarsaparilla. It restores every disordered function to a normal condition.
